

ABOUT US

Nepal National Single Window (NNSW), is a World Bank funded Project, led by the Webb Fontaine Group, a world leader in implementing trade facilitation systems and solutions designed to simplify border processes, minimize time and cost for trade community and ensure safe and secure trade. The project will set up a portal linking all relevant stakeholders from Government Agencies and traders.

The Department of Customs and over 42 Other Government Agencies and Stakeholders involved in Nepal's international trade supply chain, have collaborated to ensure this solution will meet the needs and expectations of Nepal for prosperity and progress.

WHAT IS NNSW?

INTRODUCTION

Nepal National Single Window (NNSW) interconnects all stakeholders involved in international trade and allows them to perform trade procedures on a single platform.

By simplifying and speeding up Customs and trade processes, traders and Government agencies benefit from automated and smoother processes reducing clearance cost and time.

NNSW secures Government revenue and improves overall country standing on international trade indicators such as the World Bank Doing Business Report.

APPLICATIONS

- LPCO Submission & Processing
- Goods Inspection
- Risk Management
- User Registration
- Mobile Tracking
- Electronic Payment

HOW IT WORKS

Users access the NNSW platform via a web interface, where a public portal provides a range of up-to-date information including trade formalities, import and export procedures, latest tariff codes and rates.

Once logged in, users can fill in and manage applications for License, Permit, Certificate and others (LPCO). All duties, taxes and related trade fees can be paid using electronic payment facilities.

Documents can be scanned and attached for online submission, eliminating physical visit to administrations. Data submitted once is used to auto-populate others, avoiding duplication of effort and providing data integrity.

Credentials are cross-checked for consistency and traceability, reducing errors and fraud.

The status of on-going document processing can be viewed by trader at any time, on mobile devices.

BENEFITS OF NNSW

- Simpler and faster trade transactions
- Interconnect all stakeholders
- Online transaction processing
- Single sign on
- Errors and fraud reduced
- Generates trade reports
- Digital signature enabled
- Light interface access
- No physical administrations visits
